

Technical rider: Festa Colletta

STREET SHOW

Type of show: Fixed show, one place, one audience.

Duration: 45 minutes

Scene: Semi-circle of 7m diameter with a minimum height of 4m

Surface: Hard flat surface (asphalt, low grass, concrete) no soft, wet surface (mud, sand, agricultural field, gravel).

Sound: We play amplified live music, we can handle a certain amount of background noise, but we are more effective when there is little noise pollution. Loud ambient noise during the performance is very disruptive.

Outside/inside: In case of heavy wind or rain we can play in a covered place.

Electricity and Amplification:

1 connection 220v/10A

We have our own PA system for an audience of up to 350 people

For audiences over 350 people, the organization provides extra speakers that are connected to our system via XLR cable.

Lighting: When it is dark we need both front and backlighting.

Close to the performance: Dressing room with electricity

Food and drinks: for 3 artists

During the performance sufficient water

After the performance a warm, healthy, balanced meal.

1x Vegetarian, 2x Everything

MOBILE ANIMATION

Type of show: Mobile animation.

Three artists ride their cargo bikes, walk, make music, perform circus acts and seek interaction with the random audience.

Duration: 2 x 45 min

Scene: We cycle around with a cargo bike, slightly sloping terrain is possible, no stairs.

Surface: Hard surface is good, no mud, loose sand....

The bike is 90 cm wide. It cannot go through a standard door. It can go through a double door.

If there are many factors on our route that we have to take into account (such as where we are and are not allowed to make noise, timetables, where we have to stop, etc.) then it is valuable to have a guide who can point us in the right direction.

Sound: We play live music that we amplify with a battery. We can handle a certain amount of background noise, but it is better when there is little noise.

Preferably close to the place where the animation starts: Dressing room with mirror.

Outside /inside: If it is windy or raining, we can play indoors.

Food and drinks: for 3 artists

During the show, sufficient water

After the show, a warm, healthy, balanced meal.

1x Vegetarian, 2x Everything
