

Cie Balltazar

Technical rider fixed street show:

"Orkest Bazar"

Show type: Circular street show, one place, one audience.

Duration: Show: 30 minutes.

Construction: minimum 45 minutes.

If we can't get our cart ready on the playground, then we need 15 minutes of preparation on the playground itself, which can be at any time before the performance. Then we drive to the scene and immediately start the show.

Breakdown: 15 minutes.

Scene: Ground: flat, horizontal (grass, concrete, wood, asphalt, ...no sand, gravel, cobblestones) circle of 8m diameter, within which no public. Height: at least 5m.

Somewhere along the scene a fixed point such as a tree or a pole, or ground into which we can anchor. The fixed point must hold 300 kg.

Audience and setting: The performance is suitable for all ages.

The audience can sit in a $\frac{3}{4}$ circle around the scene.

No sound: We play live music. It is very disturbing if there is other music or hard noise.

Electricity and amplification: 1 x 220 x 10A is sufficient. Lighting: only when we play after sunset. In that case we need lighting of the entire scene, front and backlight!

Please close to the place of the show: Dressing room with mirror.

Indoor/outdoor: If there is heavy wind or rain, we can play the performance indoors.

Drink and food:

3 artists.

During the performance: plenty of water

After the performance: A warm, healthy, balanced meal.
